PROFILE

Motivated and detail-oriented Electronics and Communication Engineering graduate with a strong theoretical foundation in embedded systems design and firmware development. Equipped with hands-on knowledge in AVR Programming, Embedded C, Python, and Driver Development gained through structured academic training and professional certification. Adept at understanding microcontroller architectures, peripheral interfacing, and low-level programming principles. Eager to contribute fresh perspectives and a strong commitment to learning within a dynamic embedded engineering environment, with a long-term goal of developing efficient, reliable, and optimized embedded solutions for real-world applications.

CERTIFICATION

Embedded Systems — Foundation to Advanced

Institution - Entri App

Duration - 2025 to 2026

Completed an Embedded Systems course from the Entri Institution for a duration of 6 months. During the course of these 6 months, I studied AVR Microcontroller Programming, Embedded C, Bare-metal programming, Driver development, and RTOS.

PROJECTS

SKILL

Embedded Programming & Development

- AVR Microcontroller Programming (ATmega series)
- Embedded C / Bare-metal Firmware Development
- Device Driver Development (GPIO, UART, SPI, I2C, PWM)
- Microcontroller Peripheral Interfacing & Configuration

Programming Languages

- Embedded C | C | Python

Tools & Platforms

- Atmel Studio / Microchip Studio
- AVR-GCC Toolchain
- Git & Version Control Systems
- Serial Communication Debugging (UART Terminal)
- Basic Oscilloscope & Multimeter Usage
- Proteus / Simulide (Circuit Simulation)

Soft Skills

- Analytical Problem-Solving

Quick Learner & Self-Motivated
Attention to Detail
Team Collaboration & Communication
Technical Documentation

EXPERIENCE

EDUCATION

College of Engineering Chengannur
Bachelor of Technology — Electronics and Communication Engineering.

WORKSHOPS

ENTRI App Workshop

Entri App commenced a workshop for students doing their embedded systems course at their headquarters. I had a quality time talking with the mentors as they helped us with the projects.
